Negatives Behavior System

Actions and Consequences

The Negative Behaviour Level’s System at Guise Public School is a flexible behaviour management program designed to run in conjunction with the school expectation statements of:

- Being Safe
- Being Respectful
- Being Responsible

The Negative Level System is to be implemented after a number of other class, playground, teacher, executive and parent strategies have been instigated.

In regular minor instances of negative behaviour parents/carers may be contacted informing them that their child is displaying negative behaviour that contravenes Guise Public School’s expectations and rules.

If negative behaviours continue to be evident, the Negative Level System can be implemented.

The negative levels will be implemented in the following order:

- Yellow Level
- Orange Level
- Red Level
- Suspension

The Negative Level System will be used in conjunction with whole class and individual positive behaviour incentives to enforce and encourage correct behaviour.

Each incident will be looked at individually before consequences are put into place.

The level system usually follows in this order, although provisions are available to skip levels and impose immediate suspension depending on the severity of the offence(s) that are or have been committed.
